

SAILED AWAY

ON FIRST STAGE OF HIS JOURNEY IN QUEST OF GAME.

Remarkable Send Off Given Ex-President on Eve of Departure.

HUNDREDS OF TELEGRAMS SENT

Him Wishing Him a Safe Journey and Return to His Country—

Crowd Lined Up as at a Reception to Shake His Hand.

New York, March 23.—Theodore Roosevelt sailed away from his native land today at six minutes after eleven on the first stage of his journey to the big game in Africa in search of the wild game in which the region abounds. From his country home at Upper Bay to the steamship dock in Hoboken the ex-president's route resembled a triumphal march, the greetings of his good luck being expressed all along the way in enthusiastic cheers. A feature of the trip was that Mr. Roosevelt rode for the first time in the tunnel under the Hudson from New York to Jersey City.

When he arrived at the Hamburg-American line pier, where he boarded the steamship Hamburg, the ex-president found a dense-packed throng of his fellow countrymen gathered together and as he stepped aboard cheers greeted him. He smiled and bowed right and left in cordial acknowledgment of the salutations of the assemblage and evidently was much pleased at the warmth and sincerity of the demonstration.

New York, March 23.—Mr. Roosevelt was met on his arrival here by Oyster Bay by Douglas Robinson, his brother-in-law and Lawrence Abbott. The party proceeded to the Hudson tunnel in an automobile. "I'll just take a few minutes to travel," said Mr. Roosevelt, "and I ought to go on a journey. I have received hundreds of telegrams wishing me a safe journey. As I have said before, I have no intention of making and its strange statement of the press have not asked me if I have a message for the American people. No there is nothing to be said and I really don't know why newspaper men should want to travel with me to Naples or some other point. There is little likelihood of there being any accidents at sea.

"You tell me that the photographer of Mr. Harnsworth's papers who accompanied the Prince of Wales to India is going to join us at Gibraltar. That will be fine won't it, Kermit?"

"I cannot definitely say how long I shall be away, but it will be about 12 months. My lecture at Oxford in spring of 1910, I am sure the expedition will be a success."

On the trip from Oyster Bay dozens of men and women stopped and shook Mr. Roosevelt's hand wishing him farewell and a successful trip. At Long Island city there were only a few who recognized Mr. Roosevelt and his son in their army great coats. At a break wall they boarded the ferry boat Hempstead and walked through the ladies' cabin to the forward decks. Here they were surrounded by a crowd of Long Island commuters some of whom came forward and extended their farewells.

The crowd becoming quiet Mr. Roosevelt said:

"I want to thank the representatives from Pittsburgh who have come all this distance to see me off. I am indeed grateful and I am touched by their thoughtfulness and their kindness in coming such a long way. I want to thank also all my fellow citizens who came to see me off. God bless you all."

Mr. Roosevelt then retired to the steamer's deck.

On his return to the steamer after his experience on the pier Mr. Roosevelt found hundreds of friends wishing to bid him God speed. A line was formed leading to the outer door of his suite and the ex-president stood there and shook the hands of the multitude that passed among them being a few women. To all he expressed his thanks. Every where he went the crowds followed and cheered him.

Mr. Roosevelt gave a short talk to the newspaper men on board the Hamburg. He greeted them at the doorway of his suite.

"Now, gentlemen, I am glad to see you," he said. "What can I tell you? Yes, there is the picture," indicating a portrait of President Taft. "It is very interesting and very fine don't you think so? Oh, certainly there is one thing that I declare very much to have you say for me. There is an immense mass of mail on board this steamship which came to me, and which I have not been able to open and which I will not be able to open for some days."

IN GOOD FORM.

Syracuse, March 23.—Edward Payson Weston left Syracuse for Lyons, N. Y., today. He was in good form and high spirits.

SECTION MAN HAD SILVER BAR.

Alliance, O., March 23.—Lieutenant Richard E. France, of the Pennsylvania railroad police department, has obtained possession of a bar of silver lost twenty years ago when a fast passenger train on the Pittsburgh, Ft. Wayne & Chicago railroad was wrecked by running into a freight train on a curve near Shreve, Ohio.

The express car, in which a government shipment of silver was being carried, was demolished and some of the silver bars were buried in the ground. Some time after the wreck a section man was digging a ditch at the site of the wreck and dug up a bar of the silver. Thinking it lead or babbit metal and worth little, he took it home as a souvenir of the wreck.

Recently he was showing the relic and was surprised to learn that it was solid silver. He at once notified the railroad officers, and Lieutenant France went to Mansfield and obtained the metal. The man who had the silver is George Hubley, now employed by the Pennsylvania company as a crossing watchman.

STRIKERS AGREE TO RESUME WORK.

Paris, March 23.—At a mass meeting of 6,000 of the striking government telegraph and postoffice employees today it was voted by an overwhelming majority to resume work. Only about 200 of the men voted to continue the strike.

ATTELL-NEAL.

New York, March 23.—Abe Attell, featherweight champion of America, and Frankie Neal of California, will box tonight tonight before the Bedford A. C., in Brooklyn. This is the third time that the little men have met. Attell won the last two fights.

SEVENTY HOURS AND NOT A WORD.

No word has been heard from the balloon America which ascended with six men at Pasadena, nearly seventy hours ago.

CROWDED AISLES TO HEAR PAYNE.

Washington, March 23.—Meeting an hour earlier than usual the house today continued consideration of the tariff bill. His speech being completed, Chairman Payne resumed his remarks, and it is expected that these will consume several hours.

He will be followed by Mr. Clark of Missouri, the majority leader and member of the ways and means committee, who, it is thought, will continue the remainder of the day.

The senate will not be in session today.

While Mr. Payne was discussing this schedule, the members crowded the aisles and well in front of the rostrum. Previously several questions would be put by them at one time and there was constant demand on his attention.

THEY QUARRELED OVER BUSINESS.

Lebanon, O., March 23.—At Russ, a remote town in La Cede county, Rev. Martin D. Johnson, last night shot and killed Rev. Solomon Odell. Johnson is the Baptist minister of the neighborhood. Odell was a Presbyterian preacher of Russ.

The men quarrel over business interests.

TROOPERS SURPRISED.

Taibitz, March 23.—An out post of forty troopers was surprised today by nationalists who killed thirty-four of the soldiers and captured the other six.

WITHDREW RESIGNATION.

Santa Fe, N. M., March 23.—Governor Curry in response to a telegram from Washington today, telegraphed President Taft withdrawing his resignation as governor of New Mexico.

SOUTH POLE IS NOT YET LOCATED.

London, March 23.—A cablegram was received here this afternoon direct from Lieut. E. H. Shackleton, the Antarctic explorer, who earlier in the day was reported as having reached the south pole. The contents of this message has not been given out but it has been declared by a high authority that the explorer failed of success.

POLICE HUNTING FOR KIDNAPPERS.

Toledo, March 23.—Toledo police are searching the city for Harold Moon, aged ten years, who was kidnapped from his home at Flint, Mich., on February 27, and who, with his captor, is supposed to be here. A boy answering Harold's description accompanied by a man, was seen Monday in a gondola car in a Michigan Central train, bound for Toledo. Flint citizens have offered a reward of \$1,000 for the boy's safe return. In this case no ransom has been demanded and the police are unable to find a motive for the abduction.

WAGES REDUCED TEN PER CENT.

Hazleton, Pa., March 23.—The wages of the laborers at the mill of the Hazleton Sheet Steel Co. have been cut 10 per cent and of the rollers 20 per cent on account of it is stated, the bad condition of the industry. The laborers refused to accept the reduction and quit. The rollers will meet tonight to act. The management said the plant would be shut down if the rollers declined to continue work. About 200 men are affected.

ONE OR OTHER

MUST BACK DOWN OR MINER'S STRIKE IS CERTAIN

Everything Connected With Reaching Settlement Up in Air.

LEWIS REFUSES TO PUT HIS NAME

To Anything Unless It be as President of the Miners Union.

His Views to be Presented to Delegates at Meeting Today.

Scranton, Pa., March 23.—With more than five hundred delegates in attendance, the convention of miners from the three anthracite districts of the United Mine Workers met in Music Hall in this city today and after perfecting the organization took a recess until 3 p. m., this afternoon. T. L. Lewis, president and made a brief address, in which he asked the men to make a united stand on behalf of all the anthracite mine workers. It was Mr. Lewis's first appearance before a delegate's convention of the hard coal miners and he was well received. He asked the men to stand by their organization and go into the contest and act harmoniously on any action the convention might take. Nothing occurred during the preliminary session.

Scranton, Pa., March 23.—"Everything is in the air," said a miner this morning when he entered the Music Hall where the convention of the mine workers of the three anthracite districts of the United Mine Workers is in session for the purpose of taking up the question of arranging a new agreement with the coal mining companies to take the place of the present one which expires March 31. This expression practically summed up the situation as it stood when the convention was called to order.

The mine workers are usually very reticent but those who did talk said they did not know what the result of the convention would be. They all hoped there would be no trouble and there were very few among them who would openly say they were for a strike.

Everybody is waiting to hear what T. L. Lewis, international president of the miners' union has to say to the convention. He again said today that he has fixed ideas and that after the delegates present, their views he will give his ideas to the convention. There are many who believe that the unalterable stand taken by Mr. Lewis forces a strike. He will not sign any agreement except as president of the miners' union and the operators say they will not treat with Lewis and his officers except as representatives of the anthracite mine workers. It therefore looks as one delegate put it a back down of one or the other side or no agreement at all.

There are many who believe that no agreement will be reached and that the miners will continue to strengthen their organization and make a fight later on. The convention is expected to last two days. Mr. Lewis has an engagement in Indianapolis Thursday afternoon and will leave here late tomorrow. It was learned here today that the coal companies will not make the usual fifty cents a ton reduction in coal on April 1, if a strike is declared.

DOUBLE TAX FOR ALL OHIO AUTOISTS.

Columbus, Ohio, March 23.—The Circuit Court of this county has handed down a decision holding that the taxing of automobiles by a municipality, although the power of the machine has secured a license from the state, is valid. The decision of Judge Edmund H. Dillon, of the Common Pleas Court, was sustained. The case is that of William Frisbie against the city.

CHILDREN TAKE ITCH FROM HORSES.

Springfield, O., March 23.—Colonel Joseph Colburn, a human officer, went to Snyderfield yesterday, and found the seven children of William Clark, colored, suffering with strange disease. The father was the owner of six horses and four of them have died within the past two weeks. What is termed "Texas itch," which is similar to mange, but more dangerous. The disease starts under the throat and continues to eat into the animal until all the hair on it disappears. Then death follows. The heads of the children were examined, and it was found that the hair was almost eaten off.

ON TO BROOKLYN IS OSCAR'S CRY.

New York, March 23.—Oscar Hammerstein announces that he will build an opera house in Brooklyn. According to a statement which he issued last night negotiations for the construction of the new building will be closed within a few days. The house will be patterned after the Hammerstein opera house in Philadelphia.

LEAGUE IN DEBT TO PAUL MORTON.

Akron, O., March 23.—Harry U. Morton says that when the accounts of his brother, Charles H. Morton, former president of the Ohio and Pennsylvania Baseball league, who, after being missing for several weeks was discovered early last week in Chicago, have been settled the league will not lose a cent. Instead of the former president owing the league money, Morton declared, the league is indebted to Morton. This he said, was due to the fact that several clubs in the league had failed to meet their dues.

STRONG DRINK PLAYED A PART.

Sandusky, O., March 23.—Maggie Magee, 54, was found dead in a hut near Homeville. Her husband, Henry Magee, an inmate of the Ohio Soldiers' and Sailors' home, was occupied the hut with her at the time, is missing.

Coroner Southwick, at the conclusion of an investigation, announced that while there were several bruises on the body of the woman, he had no reason to suspect foul play. The evidence tended to show that Magee and his wife had been drinking heavily for some time and that the latter was a victim of delirium tremens. The husband, finding that his wife was dead, became frightened, it is thought, and left the community.

THREE BILLS BECOME LAWS.

Columbus, O., March 23.—Three bills became laws today without the Governor's signature, one is by Mr. Mather, correcting a deficit in the law by which insurance companies were relieved for the payment of taxes on Ohio premiums paid to the home office of the company outside the state. A recent decision of the supreme court could not be held that the companies could not to effect that these taxes under the law as then placed on all premiums whether paid within or without the state.

Another bill was by Senator E. T. Crawford, of Carroll, allowing the police judges of Canton and Youngstown to practice in other courts than their own.

The third bill is one of minor importance by Senator Richard R. Cameron, of Union county.

PARTING GREETINGS

Given Roosevelt by His Townsmen on His Leaving Oyster Bay

TO BEGIN HIS LONG JOURNEY

Across Seas to Hunt in the Wilds of British East Africa.

Oyster Bay, N. Y., March 23.—Cheered by fellow townsmen who gathered at the station to bid him good-bye and God speed, Ex-President Roosevelt left here in company with his son Kermit, shortly after 7 o'clock this morning for New York to begin his hunt in the wilderness of British East Africa for the next year.

Because of the earliness of the hour there was only a small gathering at the station to see Mr. Roosevelt off. He shook hands with those who pressed about him for a parting greeting and there was a lusty cheer as the train moved out.

Mr. Roosevelt went up with the sun and soon after there was a lively bustle at Sagamore Hill making ready for the three mile drive to the station. Kermit who accompanies his father as official photographer appeared alternately happy and at the prospect of the long trip and not a little dejected at leaving home.

Mr. Roosevelt bade good-bye to the family at the house and drove down to the station with Kermit and little Archie, who sat on the front seat with Noah Seaman, the family driver.

The ex-president wore his light blue army overcoat with the colonel's insignia on the sleeve and Kermit wore a coat of similar cloth and pattern. At the station Mr. Roosevelt bided Archie good-bye and there was a trace of tears in his eyes as he said farewell.

HETTY GREEN ON MISSING LIST.

New York, March 23.—Mrs. Hetty Green is "lost." Although it had been previously reported that she would give up her modest home in Hoboken on May first, she has been missing for some time and has been waiting her movements and slipped quietly away to a new location known only to a few intimate friends. She vacated the Hoboken flat on Saturday last.

THEATRICAL MAN PROVED AN ALIBI.

Youngstown, O., March 23.—After being held for four hours, from 10 o'clock last night until 2 o'clock this morning, Joseph Weiss, local theatrical promoter, suspected of being implicated in the Whitley case, was released. Weiss was closely questioned by Chief of Police McDowell and proved an alibi, by accounting for all his movements.

BILLY WHITLA

IS BACK AT HOME IN DEAR OLD SHARON.

Father Handed Him Into Arms of His Mother at Noon Hour.

AN OVATION ACCORDED HIM

By Five Thousand Good People When Train Pulled in

From Cleveland Where He Was Given to His Father Last Night.

Sharon, Pa., March 23.—Willie Whitley the ransom boy after an experience of five days with kidnappers was returned to his mother's arms a few minutes after 12 o'clock today. The reunion took place around the family hearthstone in the Whitley home and no prying eyes were permitted to witness the greeting of mother and son, the only immediate relatives of the family being present at the home coming of the lad.

According to an ovation by the populace of Sharon that could not have been heartier, the little fellow and father arrived here at 12 o'clock this morning. Fully 3,000 persons extended the lad a demonstrative greeting. Pushing their way through the dense crowd surrounding the railroad station, Mr. Whitley, Willie, his uncle and a detective, hurried a cab and were quickly driven in the direction of the Whitley home. Cheering and singing the great gathering of enthusiastic neighbors and citizens followed the cab through the streets. Business was practically at a standstill, public schools were dismissed and a justification that will last until tonight was given full sway.

Within a short time the party arrived at the Whitley residence where it was greeted by a second large crowd which had congregated about the house during the morning, and when they came and the crowd came into view a mighty shout went up from the populace.

When Mr. Whitley and his son alighted from the cab, a mighty demonstration was given them.

With difficulty, the father, boy and others of the party succeeded in extricating themselves from the crowd and went into the house. Here the mother who had been patiently waiting with happy attention since last night to see her boy, affectionately clasped her child to her bosom and for several minutes they clung to one another and sobbed.

"My boy, my dear, dear boy, you are back in mother's arms," he cried and hugged the little fellow. The mother showered him with kisses and seemed reluctant to leave him from her arms to answer the calls of the multitude gathered in front of the house. After being in the house five minutes, Mr. and Mrs. Whitley, with his uncle and aunt, Mr. Buhl and his grand parents, Mr. and Mrs. Whitley, both of whom are over 80 years old, came out to the front porch. The crowd cheered and rushed toward the house. For a moment it seemed as though some of the people would be crushed.

Willie climbed to the railing, and got in sight of the crowd and when he appeared a great cheer went up. Big "Bill" Taft was never given a more hearty welcome than was little "Billy" Whitley. This afternoon hundreds of telegrams were received from all parts of the country congratulating Mr. and Mrs. Whitley on the recovery of their child.

It is stated today that every bill in the package of the \$10,000 ransom money had had their numbers and description taken before the money was given to the kidnapers and that a full list of numbers have been sent to every city in the United States and surrounding towns.

Flags and bunting are now being placed on buildings and over doorways throughout the city and the Independent Riflemen's organization, organized by Frank Buhl, of this city, an uncle of the boy will parade through the city's streets.

Some person in the crowd cried: "Was he worth \$10,000?" "Yes, ten times over," replied the father.

Cries of "speech" were next made by the crowd and Mr. Whitley said: "To every person who has assisted my wife and myself in the recovery of William, we extend our sincere thanks. It seemed to us that all this had the effect of keeping us up under the fearful strain while Willie was away. To the newspapers, police and others we are thankful. All we wanted was Willie back again."

Cleveland, March 23.—"Billy" Whitley, the kidnapped boy, and James P. Whitley, the rejoicing father, left Cleveland today for Sharon, Pa. Hundreds clogged the corridors of the Hotel Hollenden in anticipation of catching a glimpse of the lad whose whereabouts had become a puzzle to the detectives of the land. "Gee, Papa," said the youngster, as he was being helped into a taxi-

IN REGAL WAY

ROOSEVELT STARTS ON HIS TRIP TO AFRICA,

Most Interesting Journey Undertaken by an Ex-President.

HIS APARTMENTS ON HAMBURG LINER

Specially Prepared Though Against His Wish That He be Shown

No Favors Other Than Are Accorded to the Average Tourist.

New York, March 23.—With the departure of Theodore Roosevelt on the steamship Hamburg today begins the most interesting journey ever undertaken by an ex-president of the United States. General Grant's trip circled the globe, but it was for the most part in the beaten path of ravel, while Mr. Roosevelt is going into a wild and almost unexplored country.

The ex-president on his arrival at the Hamburg-American line pier in Hoboken was greeted with bands playing, flags flying and the cheers of several thousand people who had assembled to wish the distinguished traveler God speed. He was beaming with good nature and enthusiasm about the trip. Everything was "fine" and "bully" to Mr. Roosevelt, and he acknowledged the cheering by repeatedly raising his hat. The steamship company had been besieged with requests from local and out of town delegations for places on the pier and as many of them as possible were accommodated. The Italians were very much in evidence with six large delegations. They wanted to take six delegations on the pier but the company's officials persuaded them to cut it down to one. A large delegation came from Pittsburgh and other out of town delegations swelled the numbers on the pier by several hundred. A number of foreign diplomats including the French ambassador and men who were prominent in the Roosevelt administration were received on board the Hamburg. While the distinguished passenger had left instructions with General Manager Hoas and Captain Burmeister, of the Hamburg, on his visit of inspection to the steamer yesterday that he would prefer to have no unusual attentions shown him aboard ship at the time of sailing, the captain and his officers could not forgo the opportunity to greet the ex-president in true military style. They all wore their showiest buttons and braids and stood about at respectful attention whenever Mr. Roosevelt appeared. Everything had been put in spick and span order aboard the boat. The outside of the numerous deck houses and the cabins along the promenade deck had all received a new coat of white paint and the big boat had been scrubbed and polished from stern to stern. The suite of five rooms combine all the conveniences and apartments of the best hotel apartments. The best room which is used as the parlor was banked with flowers that had been sent to the steamer by friends in advance of the Roosevelt party today. The parlor walls are covered with a rich green silk damask covers the walls and the furniture is of mahogany with the exception of the heavy brass bed. The bath room has a high marble wainscoting with a dark red tiled floor and is equipped with two tubs and a shower bath, and is supplied with both fresh and salt water. Large windows open on the ocean side from all the rooms. The whole suite is electrically heated, and the electric lights are of bronze. Some of the pictures and smaller furnishings in the suite were presented to the Hamburg officials by Emperor William at the time he occupied the same suite on his cruise to Italy and later to Naples.

The gymnasium situated in a large deck house built on the upper deck and equipped with all the latest exercising machines, is the pride of Mr. Roosevelt's eye. "Great," he said, when he inspected it yesterday. Besides the saddle machine on which one can get the exact motion of the horse and animal at regulated speeds there are all kinds of vibrators, strengthening the reducing, and weight lifts and pulleys to supply action to every muscle in the human body.

Many of the passengers who sailed today on the steamer Hamburg went on board the steamer last night in order to avoid the rush and confusion of the crowds which were expected to be present today. The last of the outfit of the Roosevelt party was put aboard early this morning.

At the east end candy store where the money was paid the tracks of the men who got the money can be followed no further than the door. At the spot where the boy was taken to board the car there is trace of the man who had accompanied him beyond the vacant lot where he stood and watched the boy take the street car. Whether they ever will be captured is problematical.

It may be a day or two before Billy Whitley is able to tell the whole story of his wanderings. When he came into the hotel Monday night he was dazed. He scarcely knew his father when the man leaped to him and clasped him in his arms. He did remember that a woman gave him "medicine" and it was evidently a strong drug for many of the child's serious seemed almost abnormal and he was in a stupor much of the time that he was in custody of the child thieves. Even when he came to the hotel Monday night or thought that he was in Astabula or in Akron—he had heard the men talk of those two places. He knew that he had been in Warren and in New Castle. He thought he had been in the latter place for three days. He was in bed most of the time.

The acceptance of the money by the kidnappers in this city puts the Ohio courts even though the actual kidnapping was committed in Sharon. The bills which were paid to the kidnappers were not marked, but every number on them was taken. The Cleveland police are not inclined to believe Mr. Hendrickson was a party to the kidnapping plot but that she was merely an innocent agent used for the payment of the \$10,000 ransom.

Mrs. Hendrickson said, Tuesday: "A man whom I had never seen before, came in here just at noon Monday. He asked for some stogie and as he asked for them asked how business was. He did not seem to be nervous but rather good natured. He told me his name was Hayes, and that he had expected a package to be left here for him. I told him there was none and he said he would come back. He said a man named Williams would leave it for him."

"From what I can remember the man seemed to be Irish. He was not German or Polish, and he was neatly dressed."

"It was nearly an hour after that a neatly dressed man came in and said he had a package for Mr. Hayes. I told him he had been in Williams left the package, wrapped in newspaper. I did not know there was all that money in it. He had hardly got out of sight when Hayes came in. 'Your friend just went out I said.'

"He laughed and said it was too bad. I gave him the package and he went away. I never saw him before."

Sharon, Pa., March 23.—This is "Billy" Whitley day in Sharon. The streets are crowded with excited groups and a big demonstration is planned when the \$10,000 ransom money reaches the town shortly after noon today. Every school child in the town will be at the Erie station to greet the youngster. Practically the entire population of the town will be there and "Billy" Whitley will be given the greatest demonstration of

THE LIMA TIMES-DEMOCRAT.

VOL. TWENTY-FIVE. NUMBER 140.

LIMA, OHIO, TUESDAY, MARCH 23, 1909.

SECOND SECTION.
TWELVE PAGES.

PRICE TWO CENTS.

Who is this poor man who looks as mortified as though while debating which train to take he had missed both, who has the air of one about to ask a policeman, without being at all certain that the policeman will not take him in; who wears the whiskers of Saugerties, the tailoring of Oskaloosa, and the cowhide boots of Upper Jay; who has a Masonic pin in one lapel and the three links of the Odd Fellows in the other and asks the boy to show him which car to take to go to the House of Representatives?

He is a new member, gentle reader. He is a new member of the house, and he is puzzling out what all the rowdies over the rules and whether the rules have to do with bridge whist or the latest go with hard gloves. He has been tempted to go with the "insurgents" and to go with "Uncle Joe," and he knows that he is going with "Uncle Joe," but he didn't say so quick enough to be one of the "originals" and at the same time he is a marked man by the "insurgents" for future conflicts.

He has come to town to begin that long and dreary grind of the new member to learn his first lesson that a man to be considered worthy of any better committee than on Accounts of the Indian School at Eagle Lake must serve through at least three congresses, and each congress is two years long.

There are twelve specimens of the new member to the present house than usual. There are, in fact, about seventy-five of him. The last campaign was very productive of new members. The dear public was supposed to have it in for the republican congress. It was generally announced by Representative Lloyd, of Missouri, who was in the business of making a democratic representation, that the democratic congress would elect the next speaker. Some would elect a hand and republican representatives began to fail of re-nomination. They were knocked out right and left, and the fellows who had been waiting their chance for many years got on the ticket. But there the theory of Mr. Lloyd and his associates on the democratic congressional committee failed. The republicans were mostly elected, and the landlards in Indiana, which left mighty few republicans alive, were off set to some other states by landlards that left very few democratic representatives alive.

Lot of Congress Babies.

So congress is not democratic, but there is the finest lot of baby members for James Francis Burke and J. Hampton Moore to have fun with that has been seen in the house since the first McKinley congress came in.

The new member has much to learn. Here are a few things that will dawn on him as time passes and the jilts burst out in blossom in Lafayette square:

That congress hall is not the room where congress meets, but an apartment house.

That it may be difficult to get the speaker's eye, but it is harder to lose it after he has promised the speaker his vote.

That the story of beautiful female lobbyists in low cut dresses, drinking champagne out of slippers, is all a sham.

That the famous lobbyist has passed and the only temptation will come from the press agent, who will want his views in favor of a bill for nothing and then expect to be treated to the beer.

That all the lobbying is done at the Waldorf-Astoria and the Astor in New York city.

That if he has any money above his salary he will go to the Washington real estate agency for rent.

That he will each year get four large-sized invitations to the White House reception, but no one will notice it if he doesn't go.

That he will not have to walk down to the corner store for his mail in the afternoon, but can get it at the house each morning.

That Frank H. Hitchcock was not torn since the election and knows examination and who did not.

That his son cannot be appointed to a European embassy until he has at

least served as clerk to a vice-consul's assistant.

That he can make his wife or daughter his secretary and thus save \$1,200 a year, but the news that he has done so may get back home.

Only Seeds are Free.

That the only place where he can get anything he wants is the department of agriculture.

That the weather bureau is not a serious institution and that the president knows it.

That, knowing this, however, the personnel of the new members of the house is higher than for many years. Nearly all are men who will make their mark. There are some of the most progressive farmers in the country in the new house. There are some of the brightest lawyers. The new members from New York, headed by Hamilton Fish, are above the average. The new members from Indiana are especially conspicuous for their ability. Here are their names, home towns and politics:

Alabama—Stanley H. Dent, Jr., democrat; Montgomery.

Arkansas—William A. Oldfield, democrat; Batesville.

Colorado—(At large), Edward T. Taylor, democrat; Glenwood Springs; Atterton W. Rucker, democrat; Fort Logan; John A. Martin, democrat; Pueblo.

Connecticut—(At large), John Q. Tilson, republican; New Haven.

SHORT SPORT TALKS.

Willie Keeler says he is rid of the stomach trouble to which he attributes his falling off in hitting the past two years.

Clark Griffith is quoted as saying that the only member of the Cincinnati team who will play in the same position this year as last season.

Artie Latham was once fined \$1,000,000 by Chris VonDerAbe of St. Louis, after a hot series of "doubles," but none of the fine was ever collected.

Business Manager Dunnigan has already received requests for seats for the Cincinnati exhibition game in the spring, indicating that base ball sentiment is strong in this city.

Charley Chup has announced that he feels it up to him to win as many games for Boston as Cy Young did in 1908. Chup is sincere, and at the same time the owner of a pretty heavy contract.

Connecticut base ball enthusiasts have a bill in the state legislature to permit Sunday base ball. That is the only hope the Nutmeg league has of being able to play a season through.

Jim Deleahanty has demanded a \$4,000 contract from Joe Cantillon. A batsman who hit like Deleahanty did last season has a right to ask that much, too.

Mike Cantillon is not worrying about the discussion over Sunday base ball in Minneapolis. He figures that he can show the leaders of the movement that Sunday ball is not only harmless, but beneficial.

Joe Nealon, the ex-player, has deserted the "Outlaws," and signed with the Sacramento Pacific Coast league team.

The Naps are running the Athletics a close race as the former brigade, now having Cy Young, Flick and the two Clark on the team, all farmers.

Christy Mathewson used a check-board to illustrate to Harvard players the need of brains in base ball. Some of Matty's moves shamed the collegians.

The Philadelphia Nationals will have a little surroundings this season. The new owners of the club will bar advertising from the fences and players will have a soft shade of green.

Outfielder Hugh Tate, formerly of Marion, O., has reported to the Louisville club for early training duty.

It's a strange case, but fact that New York City turns out few professional base ball players. Manhattan natives are scarce in the national pastime.

Wittie and Donlin are the only Giants not in the base ball camp at Marlin Springs. McGraw is preparing Herzog to take the place of Donlin in right field.

Kid Elberfeld is still absent from the New York Highlander quarters. Illness in his family has prevented the "Tabasco Kid" from reporting.

Manager Doyle will have his squad

report in two sections, the recruits on April 1st, and the veterans on the 10th. He figures that he can thus get a better line on his men than with a big squad on the field all of the time.

Scotty Winters, former catcher and first baseman of the Molders has signed a contract to play with the Grafton V. A. ball club.

Lee Fohl has signed for his Lima club third baseman Harry Weller and pitcher Frank Krohn, Pittsburgh players.

Lancaster has placed cribbing around their ball park which prevents the floods from forming a current and washing the ground away as formerly. The recent floods left the grounds in good condition.

Fox at Lancaster will have Carter, Moeller, Keane, "Flicker" Lyons, Yost and Corbin for his outfield. Carter is well known from last season. Moeller played for a while with Portsmouth, Keane comes from the Cotton State league, while Tooley hit 302 last season with Charleston in the Western Pennsylvania league. Lyons and Corbin are try outs, while Yost failed to make good last season.

Outfielder Corbin, who is touted to be the equal of Hobbitt, who played with Cincinnati last fall, and Pitcher James, of Jackson, have signed coming season.

Keller, who played right field for Portsmouth last season and looked good, has been released by Doyle.

The Portsmouth outfield looks like Totman in right, McAllister in center, and Juzzi in left. Juzzi has played in a number of minor leagues.

Newman, Lima's shortstop, may not play this summer, being busy with his copper mines. Fohl has signed Fred Arrow, an infielder from the semi-pro ranks of Columbus. If Arrow makes good he would go to second and Pink to the shortfield.

Portsmouth has released Goodrich, an outfielder from the Oklahoma-Kansas league. Goodrich is a good man and a Portsmouth says that he may land with Burke at Mansfield.

Lefty Snyder, Newark's outfielder, wants to buy his release from that club for \$100. He is said to be wanted by Hartford and New Haven, Conn., and by Birmingham, Alabama. Frank Locke, outfielder has signed his Newark contract.

Irve Wratten, Newark's third baseman, is another Molder holdout who is George Matbay, left fielder for Mansfield last season, is a free agent. It was thought that he had been paid in full for the season last year, but received no money for the last three weeks of the season, and Akron loses their claim to him. He has written to Akron asking for a contract.

DRUNKARDS AND MARRIAGE.

The Illinois legislature has a bill that, it is said, has a fair prospect to become a law, which prohibits any drunkard from marrying in that state. It amends the general marriage law by declaring a habitual drunkard incapable of contracting marriage. A "habitual drunkard" is defined to be a person who becomes intoxicated twice a year or oftener. It is also provided that applicants for marriage licenses shall make affidavit that they have not been intoxicated twice in the preceding year. This is a rigid restriction, and will materially reduce the number of marriages in that state. There are many respectable men in good society and connected with fashionable clubs who are not drunkards, but an affidavit that they had not been intoxicated in a year might stagger many of them.—Utica Press.

MILK AS A FOOD.

A writer in the Live Stock Journal strenuously objects to the propaganda regarding the danger of transmitting bovine tuberculosis to the human through the agency of the milk. His views coincide with those of the great Dr. Koch, who holds the opinion that the disease is not transmissible from the lower to the higher animals; and in this connection he pays a glowing tribute to milk as a food when he says: "Almost every household in the village in which I live has each morning new milk fresh from my dairy cows. To these households—nine in all—this natural milk is an unmixable source of health, and a prophylactic against disease. The idea of its being a propagator of disease is absolutely inadmissible. There are two heads of households out of nine who, advanced as they are in age, derive as patent a benefit as the children of the village, and the measure of this benefit would be greater if their means allowed them to increase their consumption of milk. One of my laborers who has been without a break in my employment for more than 50 years, when he was over 60 years old told me that he felt that the strength in his wrists was declining. He was advised to take more new milk, and for many years past his daughter has had one pint each morning for her father's exclusive use at breakfast. He has not lost a day from sickness all through his long career of work, and he is now daily in attendance for work at 5:30. His wife, who is a year older than her husband, has, like he, a pint of milk for her own use. As both of them are nearer 80 than 70, each of them can testify to the value of new milk for the aged. Similar testimony comes from my friend, a schoolmas-

ter, who since—some quarter of a century ago—he gave himself a liberal supply of new milk each morning, has greatly improved his health. He has just asked leave for an extension of time before he is compulsorily retired for his pension. He has three sons who might take good positions as athletes, and they owe their health and strength to a regular supply of milk from their babyhood onwards. One of them by my advice, in default of his mother's milk, had almost from his birth regularly each day the milk of a cow chosen by me.

SECRETARY OF WAR DICKINSON.

The country, and the South in particular, is fortunate in the man whom President Taft has chosen for the high office of secretary of war—at ways important, but more important today than ever in view of the fact that upon his shoulders rests the successful completion of the Panama canal.—Mr. Jacob McGavock Dickinson.

The nomination is a compliment to the South in itself, and expressive of the friendly feelings of Mr. Taft to this section—for Mr. Dickinson is a Southerner of Southerners, and a democrat at that. He is credited to Tennessee, where he has lately made his home, but he is a native of our neighboring state of Mississippi, honored by the thousands of his fellow-citizens who know him so well. A typical Southerner, he represents the best sentiments and ideals of those men who, in the years just preceding the civil war, managed the affairs of the Union and managed them so well.—New Orleans Times-Democrat.

TIBETAN TEST OF CHARACTER.

The Tibetans have some strange tests for ascertaining the character of a man. One is by means of a hole in a block of granite, through which the individual has to crawl. If he is an honest man he will, according to the theory of the Tibetans, creep through, but if a scoundrel he will stop in the middle. Dr. Sven Hedin's London Address.

A decided innovation in the restaurant line and a change which cannot fail to please the many Lima men who have their meals down town, is the new plan upon which the White Cafe is conducted. The "regular dinner" is a thing of the past and in its place we find a prompt a la carte service, far preferable to the majority of men, whether it be lunch or dinner. Good Cough Medicines for Children.
The season for coughs and colds is now at hand and too much care cannot be used to protect the children. A child is much more likely to contract diphtheria or scarlet fever when he has a cold. The quicker you cure his cold the less the risk. Chamberlain's Cough Remedy is the sole reliance of many mothers, and few of those who have tried it are willing to use any other. Mrs. F. F. Starcher, of Ripley, W. Va., says: "I have never used anything other than Chamberlain's Cough Remedy for my children, and it has always given good satisfaction." This remedy contains no opium or other narcotic and may be given as confidently to a child as to an adult. For sale by all druggists.

RAILROAD BREVITIES.

C. H. & D. Negotiations.

That the Baltimore & Ohio is seeking exclusive control of the Cincinnati, Hamilton & Dayton is evidenced by fragments of information that have come to public notice regarding negotiations between representatives of the B. & O. and interests connected with the C. H. & D. For a year past it has been popularly understood that the C. H. & D., when reorganized, would pass to a joint ownership of the B. & O., Erie and Chesapeake & Ohio. It is now understood that the offer made recently by the B. & O. for the C. H. & D. did not take into account any sort of deal with the Erie and C. & O., but that the B. & O. made a bona fide offer on its own account to take over the controlling interest in the Toledo-Cincinnati road.

Rumors that the B. & O. might begin negotiations for the purchase of the Pere Marquette are scattered by the best railroad authorities. The Pere Marquette is too big a proposition for the B. & O. to tackle, especially along with the purchase of the C. H. & D.

One who has made a study of the traffic situation, advances the idea that the Ann Arbor would be the ideal outlet of the B. & O. to the northwest in case the latter road takes over the C. H. & D. and that a deal for the purchase of the Toledo-Frankfort road would not be a surprising event of the future. The B. & O. has for a number of years past been considering various projects for getting into Toledo. The system at present reaches every port on Lake Erie except Toledo. It has branch lines into Cleveland, Sandusky, Lorain and Fairport, but fails to reach this, the most important gateway for coal and other shipments to the northwest. That the B. & O. will eventually get into this city, there is scarcely a shadow of a doubt. At present the C. H. & D. appears to offer the best opportunity. But if the B. & O. secures the Toledo road, it will still be short of a complete outlet to the northwest except by water route during the navigation season, and the suggestion of a deal for the Ann Arbor appears reasonable.

Feel the Shrinkage.
"Every road is feeling a great shrinkage in the volume of passenger traffic at the present time," said Mr. Harry M. Morris, division passenger agent of the Lake Erie & Western, from Lima, who was in the city yesterday. "Our lines are fully aware of the condition and I know positively that the same is general, despite the statements to the contrary. Passenger men dislike to state that business is dull and, as a rule, you hear them going into raptures over an imaginary rush, but you can take it from me, there is very little doing."

This period of the year ordinarily is the dulliest in the twelve months and can be likened to the lull before the storm, as when spring opens up, there is always a heavy rush. One of the greatest factors in causing a falling off in the traffic and incidentally a great disappointment to the trunk lines, is the comparatively small amount of homeseekers and tourist business. Last season, the railroads stretching west from the two principal gateways—Chicago and St. Louis—had all they could do to handle the business and extra trains were of frequent occurrence, but this season, the business is hardly sufficient to fill the space in the regular trains.—Port Wayne News.

Heavy Traffic.
Trains 20 and 21 of the Pennsylvania lines, west-bound, and the return trains east-bound for the last few days have been hauled in two sections, so heavy has the travel been and also mail and express matter. While the company complains of the volume of its business, all its trains show that the company was never doing a heavier traffic with the passenger trains than at the present time.

New Pullman Contract.
The Pullman Car company will at once take up the work of building one hundred and thirty-two all steel Pullman sleeping cars for the Pennsylvania company. Only four cars of similar construction have ever been built and these were for experimental purposes and have proven the superiority of steel over wood in the construction of sleeping cars. These cars will cost \$25,000 each, the total sum involved in the contract being \$3,300,000. The contract calls for delivery of all cars on or before June 10, 1910, at which time the Pennsylvania expects to have the new tunnel and central terminal in New York completed.

Wages Due 41 Years.
The Loganston Journal says: "Adam Shumaker, aged seventy-two years, an employee of the Pan Handle Railroad company in 1878, when he worked for the company for a few months in the boiler shop, returned this week to secure his wages for a month and a half of that time. Local Pan Handle authorities

looked up his record, and it is said found that his story is true, and his claim was sent to the Pittsburgh offices, where, if the records show that he never received the money, he will be paid. Shumaker says that Shumaker came to this city, secured a home for his wife and himself, and started to work for the Pan Handle. A few months after he had been here a Port Wayne man, of whom he rented the house, garnished his wages for alleged back rent. Shumaker claimed the rent had been paid by his wife, and refused to pay, leaving his money on the books rather than pay the claim. He resigned his position with the company, and since that time, he says has been doing odd jobs, tree trimming, etc. Recently he said he met the man in Port Wayne who tried to garnish his wages, and that man recognized him and spoke of the trouble they had had. He advised Shumaker to come here and put in a claim for the wages neither of them could get. Shumaker took the advice. The sum due him is thought to amount to only about \$50, as he did not work all the time during the month and a half for which he had not been paid.

Pennsylvania Whittaker Case.

Captain Henry Stoll, of the Pennsylvania police department, has received a letter from Pittsburgh headquarters relative to the kidnapping of the Whittaker boy, at Sharon, Pa., on the morning of March 18. It is believed that the boy is being held at some point in the central west and Captain Stoll will issue circulars on the subject to every member of his department. The boy is described as follows: Age, eight years; medium build, light hair; wore sweater with red stripes; knee trousers, black stockings, tan shoes with high lace and strap buckles at the top, blue cap with "Eagles." The boy's parents are wealthy and have offered a big reward for his return. It is thought that two men are holding the boy and they offer to give him up on the payment of a \$10,000 ransom.

A Religious Author's Statement.

Rev. Joseph H. Fesperman, Salisbury, N. C., who is the author of several books, writes: "For several years I was afflicted with kidney trouble and last winter I was suddenly stricken with a severe pain in my kidneys and was confined to bed eight days, unable to get up without assistance. My urine contained a thick white sediment and I passed same frequently day and night. I commenced taking Foley's Kidney Remedy, and the pain gradually abated and finally ceased and my urine became normal. I cheerfully recommend Foley's Kidney Remedy." Sold at Enterprise Drug Store, M. THINGS TO THINK ABOUT.

Sixty languages are spoken in Russia. England's food importations average about \$16 for each inhabitant. With all its possessions considered, there are six colored persons to every white in British empire. The first alarm of fire by an electric telegraph system was given at 3:30 p. m. April 29, 1852, in Boston.

Street sweepers of Chicago and Boston carry a tiny electric lamp on their caps to keep from being run over.

Stockholm, Christiania, Berlin and London in the order named have the lowest death rates of all the cities of Europe.

Of the races of the world 600,000,000 are white, 700,000,000 yellow, 215,000,000 black; 35,000,000 brown or Malayan, and 15,000,000 red or American Indians.

The first application of electric heating for household use was the electric flatiron. Now there are hundreds of thousands of electric flatirons in use in private homes and laundries.

Experiments made in Germany prove that the germs of cholera or typhoid may endanger not only those who live below stream, but also those above the polluted point, as fish carry the germs upstream.

Rhodes, the city of the colossus, still survives, a medieval city in all its defensive war gear of tower and curtain and keep. It is the city which the Knights of St. John erected in the midst of the Byzantines, after being driven out of Jerusalem in the early fourteenth century.

An Ideal Cough Medicine.
"As an ideal cough medicine I regard Chamberlain's Cough Remedy in a class by itself," says Dr. R. A. Wiltshire, of Gaynesville, Ind. "I take great pleasure in testifying to the results of Chamberlain's Cough Medicine. In fact, I know of no other preparation that meets so fully the expectations of the most exacting in cases of croup and coughs of children. As it contains no opium, chloroform or morphia it certainly makes a most safe, pleasant and efficacious remedy for the ills it is intended." For sale by all druggists.

"Tudor Rosenfelt" as Described by the Future Historian

Says the interesting Future Historian: "Authentic African history begins in the early years of the twentieth century * * * and its most stupendous events are the first recorded, the records being made, chiefly, by the hand that wrought the work—that of Tudor Rosenfelt, the most illustrious figure of antiquity. * * * Further than that he was an American Indian, nothing can be positively affirmed of Tudor Rosenfelt before the year '1909' of the 'Christian (Columbian) era.' In that year we glimpse him embarking from two ships on the African coast near Bumbassa, and, with one foot in the sea and the other on dry land, swearing through clenched teeth that other forms of life than Man shall be no more."

There's much more of this delightful burlesque history of Roosevelt's exploits in Africa, by Ambrose Bierce, in the current number of COSMOPOLITAN MAGAZINE. You'll especially enjoy reading how "Rosenfelt" walks out of the jungle on the opposite coast of Africa ten years later, "attended by a caravan of twenty thousand camels and ten thousand native porters, all bearing trophies of the chase"—including the spiny hippopotamus, three rib-nosed gazzadoodles, a pair of blood-swearing bandicoots and a ring-tailed mollycoddle.

NEW STORY OF NAPOLEON.

M. Arthur Chuquet tells, in L'Opinion, a story of Napoleon and Blucher. The emperor received the general at the castle of Finkenstein while he was preparing for the siege of Danzig. He drew him to a window in an upper story and paid him compliments on his military attire, and Blucher, going away delighted, described the interview to his aide-de-camp. "What a chance you missed!" exclaimed the latter. "You might have changed the whole course of history." "How?" "Why, you might have thrown him out of the window." "Confound it!" replied Blucher. "So I might if only I had thought of it!"

THE MISSOURI DECISION.

Probably there will be comparative little surprise over the outcome of the two-cent-a-mile case in Missouri. The railroads in that state resisted the two-cent-a-mile bill as stubbornly as elsewhere. Judge McPherson decided a year ago that a year's trial would be needed to test the railroads' plea that the rate did not permit a reasonable profit and hence was confiscatory. The year's trial has been had, and Judge McPherson now sustains the railroads' contention. The tendency of court decisions has been so generally in favor of the railroads on the rate question that the Missouri decision will be accepted as a matter of course. It is pointed out that the year's trial was made in dull times, and that it therefore furnishes no proof that a two-cent-a-mile rate is unprofitable under ordinary conditions. But the courts take no account of such considerations, and while railroads are permitted to count water as capital it is to be feared that two-cent-a-mile legislation will have a rough road to travel everywhere. The moral of the Missouri decision is that there should be legislation to compel a revaluation of railroads on the basis of six per cent on actual investment. The tendency of court decisions has been so generally in favor of the railroads on the rate question that the Missouri decision will be accepted as a matter of course. —Pittsburg Press.

Made Defendant in Damage
Suit Filed by Edward
J. Bowers.

GRAFTON HEIRS
PARTITION SUIT.

Woman Arrested for Grand
Larceny in Justice
Dempster's Court.

In a suit for damages filed today by Edward J. Bowers, the Ohio Electric Company is made defendant. The plaintiff alleges that on December 4, 1908, he was a passenger on a north Main street car, operated by the defendant, which was north bound and that he signaled the conductor to stop at Hiller street. He charges that the car was coming to a stop he prepared to alight; therefrom, when the conductor signaled the motorman ahead, which sudden movement of the car threw him to the paved street, causing serious injuries to his person, rendering him unconscious, and so bruising him that he was unable to work from December 4, 1908, to January 18, 1909. He asks for damages in the sum of \$1,000. Roy and McLaughlin represent the plaintiff.

Partition Suit.
Ermy Grafton has filed suit against Harry H. Grafton and other heirs of the late Hanna Grafton, for partition of 49 acres of land in Perry township.

Grand Larceny.
Upon affidavit of J. W. Puetz, Wilda Seip, of St. Marys, was arrested in Justice Dempster's court this morning on the charge of grand larceny. The affidavit states that the defendant did steal, take and carry away a certain diamond ring of the value of \$50, the property of Mrs. J. W. Puetz. The affiant says that the defendant was employed at his residence to do some work and that she made away with the above mentioned property.

When arraigned, the defendant entered a plea of not guilty and telephoned to Sidney for Attorney Chas. Marshall to represent her. The case will be set for hearing upon the arrival of Mr. Marshall.

Will Probated.
The will of Eliza Burnham, late of Delphos, was probated today and B. J. Brotherton named as executor.

Funeral services will be held tomorrow afternoon at three o'clock at the residence of Rev. Czekler, of the German Reformed church. In charge, and interment will be made at Woodlawn.

Marion, Ohio, March 23.—Charged with attempting to wreck east bound Passenger Train No. 8 on the Erie, 12 months ago, Daniel and William Hudkins, Harry and Ray Greer and Granville and Glen Hollaway, their ages ranging from 16 to 20, are held in Rochester, Ind. The Hollaway boys have turned state's evidence, it is said.

GETTING A WIFE.

The statement that women in the jungle are the same as in society is only relatively true. In the jungle a man buys a wife at a large figure and she gets no clothes. In society he gets the wife free, but goes broke buying the clothes. In some respects the jungle method is cheaper.—Philadelphia Inquirer.

BLOOD STAINS ON THE BASKET.

**Remains of Murdered Man
Taken to Pennsylvania
for Burial.**

"After having heard the evidence and carefully reviewing the same, and having examined the body of Daniel W. Williams, and caused a post-mortem examination to be made, I do find that the said deceased came to his death by a knife thrust, in the hands of one Frank Rodgers, in Lima, Ohio, March 23, 1909."

DR. A. PFEIFFER,
Coroner of Allen County.
At 2:30 o'clock this afternoon Coroner Pfeiffer concluded his inquest in the case of the death of Daniel W. Williams, who was murdered Saturday evening at six o'clock at the corner of West and Spring streets, and rendered the above verdict.

SHORT SPORT TALK.

The Cabs had riotous laughter over a newspaper forwarded by Isaac New York friends of Zimmerman. It seems that trick made was a feature of a winter circus up in the Bronx and that the manager announced a handsome purse at the prize for any man who could stick upon the racing animal. Zimmerman went in and fought the untamed steed for 15 minutes. He hid under the back and wild applause and then, could be quarrelling about some money, lectured the purse, which was found to contain exactly \$1. Zimmerman is still home, and feels a bit nervous about the transaction.

"While good old Jim McGee is a grand old gent," said McGee, "I am a chuck for the kid-derers as he lighter to see him lay down the case and assume a new duties. For the dear old father all through his 25 years of life, the hardest, heaviest, greatest haul on record. It came to you heavy as lead and rushed into the hands like a hot

of iron. Then, as if that wasn't enough, it twisted and screwed right out of your grip, almost pulling your glove off. It was a strange ball, and a dozen infielders have told me of its terrors."

Manager Bowerman of the Doves, expects Charles Starr, the former Youngstown player, to make good and possibly become a player.

With Elberfeld away, Jimmy Austin will have a chance to show his ability with the Yankees. Elberfeld says that his foot is all right again.

Schmidt, the Baltimore southpaw, is holding out for more money from the Yankee management and refuses to join the team. LaPorte is also remaining at home in the north.

Pittsburg has released young Cy Young, secured from Boston last season.

There's bound to be joy in National league cities this summer, when the players run up against the ball and the catchers won't stand for the young fellows experimenting with it. Its abolishment is only a

matter of time among the players themselves.

St. Louis newspaper men aver that Manager McAleer, of the Browns, will keep Walter Justus, who made the Ohio State league famous last summer by his many one-hit games.

The Newark club, of the Eastern league, is said to be angling for Catcher Ritter, the property of the Kansas City club. Tebeau has issued a warning bulletin.

George Stone has reported to Jimmy McAleer in splendid shape and has out-run all the other Browns in the cross-country stunts at French Lick.

Not satisfied with having played every position on the diamond, Harry Hickman is going to give another proof of his versatility by becoming a compiler, editor and author.

Jennings is not afraid of his pitching staff. He thinks it should be good or even better than in former years.

The Home Missionary Society of Trinity M. E. church extends a cordial invitation to the public to hear Dr. Miller's lecture on "Rome" at the church, March 23rd, 1909. A silver offering will be taken at the door.

ORPHION THEATRE.

This is a beginning of another week and another good program is offered by the management of this popular playhouse. All this winter the bills presented at this vaudeville have been of the highest class and many have been headlines at the larger houses. This week the same high standard prevails and consists of six good acts.

The first is that of Andy Rankin who presents a novelty sketch by playing on various instruments and intermingling comedy at every breath. All of his talk is good and his music is well received.

McCormick and Wallace then appear as ventriloquists and are certainly excellent in their line. McCormick's work with the dummies seems almost impossible and was greeted with hearty applause. Miss Wallace has a very sweet voice and her violin imitation was very good. This is a rare act in vaudeville here and deserves the patronage of all theatre goers.

The third act was that of the four Ylerom sisters, who introduce a great globe rolling and acrobatic act entirely new to Lima. They do all their work on large globes which consist of head balancing, perch acts and other daring feats which bring the audience into an enthusiastic appreciation.

Regalaven and Baby in a singing act are very good and the number gave some very interesting reading and her singing was also entertaining.

Perhaps the last act can be called the principal feature of the week's program it being that of Pauline Fielding & Co. in a dramatic musical comedy entitled "The Rose of Virginia."

An old colonel, his niece, and a captain of the U. S. army make up the characters who interpret a love story of the good old southern days with scenes and adventures characteristic of the time. It is a fine act and the singing of all the members is unusually pleasing to every one. The thoughts of the time and the gray are united before the curtain falls and its ending is the true one anticipated.

The motion pictures carry out their gained reputation and the adventures of "Miss Sherlock Holmes" the titled representation is very interesting and satisfactory throughout.

For Diseases of the Skin.
Nearly all diseases of the skin, such as eczema, tetter, salt rheum and barbers' itch, are characterized by an intense itching and smarting, which of course makes life a burden and disturbs sleep and rest. Quick relief may be had by applying Chamberlain's Salve. It allays the itching and smarting almost instantly. Many cases have been cured by its use. For sale by all druggists.

The Road to Success
has many obstructions, but none so desperate as poor health. Success today demands health, but Electric Bitters is the greatest health builder the world has ever known. It compels perfect action of stomach, liver, kidneys, bowels, purifies and enriches the blood and tones and invigorates the whole system. Vigorous body and keen brain follow their use. You can't afford to slight Electric Bitters if weak, run-down or sickly. Only 50c. Guaranteed by H. F. Vorkamp.

**Zero, Blizzards, Storms,
Rain, Hail and Snow.**

All will come before summer is here. Do not think because it is March this winter will go by at radical odds with every order of the elements. We of this temperate zone are fashioned and constituted to cope with the violent changes of weather and if they do not come we will surely get sickly.

HAVE YOU A SNAKE STORY?

Have you a snake story that is about ready to come from hibernation?

If so it will be welcomed by the Times-Democrat—providing of course it is not of the biblical kind, but concerns a real snake or snakes that writhed and twisted their way through the grass in the pioneer days of this country.

In the early days this section of Ohio was literally alive with serpents, and many a pioneer is still living in the county who had his encounters with rattlers, hoop snakes, copper heads, and others whose sting was deadly.

Some such pioneers may win a prize of \$5.00 or \$3.00 or \$2.00 by telling a particularly interesting tale of a snake.

All sorts of true snake stories will be admissible in the contest, there being only this limitation—they must carry back to pioneer times, and be told by a pioneer or the relative of a pioneer.

There are lots of graphic snake tales in the mental storehouses of the living pioneers, or the descendants of the early settlers, and the Times-Democrat wants to bring them to light for preservation in cold, but enduring print.

Stories must not exceed 300 words in length. Any contestant—that is anyone bearing the honorable badge of Allen county pioneer heredity may send in two stories. These must be written on only one side of the paper.

Stories will be received from Wednesday, March 24 until April 17th, at noon, after which three competent but impartial judges will determine who are entitled to the prizes—five dollars to the first best, three dollars to the second award, and one dollar to the third successful narrator.

Stories, if any are received, will be published as received, with proper credit.

Address: Pioneer Contest, Snake Department, Times-Democrat, Lima, Ohio.

Today is the busiest one for several years at the county capital in jury work, there being four juries required to handle the grist of work in probate court the jury reported to hear the appropriation case of the Lima Southern Railway Company against the Lima Belt Railway Company, which was assigned for trial at 10 o'clock.

The jury was in progress, a temporary restraining order was served upon the probate court, preventing the progress of the trial until the matter has been disposed of by the common pleas court.

The proceeding in probate court was instituted by the Lima Southern Railway Company to get their tracks across the tracks and right-of-way of the Lima Belt Railway. The Lima Southern Railway is planned to extend from the plant of the Lima Locomotive and Machine Company to the steel plant, and the tracks have been laid with the exception of the crossing over the Lima Belt Railway, which is owned by the C. H. & D. system, being a switch to the railway.

Later this evening, Judge Harmon is receiver of the C. H. & D. R. filed an injunction suit against the Lima Southern Railway, seeking to interrupt the progress of the appropriation case, until the common pleas court has determined in what manner the company shall cross the tracks of the Lima Belt R. R. Judge Klinger granted a temporary restraining order and set the matter for hearing Saturday.

In the meantime, the attorneys proceeded in probate court to enjoin the jury, so they will be ready for trial when the injunction case is disposed of.

Criminal Case. Judge Bates is on the bench hearing the case of the State of Ohio against Harry Stratford, who was indicted for carrying a dangerous weapon. Stratford is bound over to the grand jury from mayor's court at Delphos. It is claimed that in an argument with one C. A. Lantry, the latter sustained knife wounds at his hand. Attorney John Klatt represents the defendant. By consent of the counsel, a mistrial was picked up for the trial.

Horse Case. In the upper court, before Judge Klinger, the case of Rudy against Shannon was called to trial. There being no jury on hand for the case, it was suggested that the counsel consent to picking up a mistrial. The attorneys for the plaintiff objected as the case has been tried twice before a picked jury, and a mistrial resulted in each trial. Accordingly the clerk and sheriff drew a special venire of twenty names from the jury wheel, and the case will be delayed until the jury has been notified and report.

Hard Problem. The jury in the case of J. L. Bradrick against the East Iron and Machine Company was charged yesterday morning at ten o'clock, and having reached no verdict at ten o'clock last night, they were permitted to go home for the night, but reported this morning at nine o'clock and resumed their deliberations. Yesterday afternoon they asked for a written copy of the court's charge. They were furnished with the same. Further than this they have asked for no instructions.

Jury Still Out. In the Bradrick case, the jury assembled at three o'clock that they could not reach a verdict. Bailiff Dimond informed Judge Klinger of their expression, and he said, "Let them stay where they are for awhile."

At two o'clock yesterday afternoon, Judge Klinger notified the attorneys and called the docket. The following cases were assigned for trial, and hearing, covering a period of six weeks.

CITIZENS OF ALEN COUNTY

Stop to Think

Did you ever think that in changing location the all important part is to change climate also? Did you ever think that in changing location you can greatly benefit your own welfare by seeking climatic condition as well as just low price land? Don't force it. A priced land is not always a factor but that reasonable prices as well as good climate make your investment of more value in after years. Victoria county has more good land and better climate conditions than any county in the state of Texas. Where can any land be sold and guaranteed to yield its purchase price the first year's cultivation. We can do it without hesitancy provided you cultivate it as you do your Ohio lands.

Where can you raise your garden vegetables all winter long without fear of frost? No place as well as in Victoria County. With very little effort one can have cantaloupe every day in the year. Tell me, friend, are not climatic conditions worth your consideration when your land under one, does not cost any more than the other? Stop to think before you purchase. It is important. The best is yet to be had and why not have it? It is up to you. Will you be right or regret what you will not have? These are the important issues for homes and locations. PROPOSED ROUTE, NEW YORK TO SEATTLE.

In all parts of the country where automobiles are manufactured close study is being made these days of the conditions that will confront the driver who attempts to take an automobile across country from this city to Seattle. The proposed contest between the two cities has aroused the proposed contest between the two cities has aroused interest in all parts of the country and its progress in May and June is likely to be followed more closely than was any previous race in the history of the newest of sports.

Many previous trips have been made from ocean to ocean. Seattle and Newport were the points between which L. Whitman and C. S. Carris drove a Franklin car three years ago. They claimed for this run a record of fifteen days, two hours and twelve minutes. They met with many obstacles and the usual number of accidents, so that their experiences and time will probably be duplicated by the cars taking part in the contest of next summer.

This and other previous trips show that little difficulty will be experienced by the transcontinental automobile tourists between New York and Granger, Wyo. By this it is not meant that the route will be the first of anything like it, but the drivers will at all times be able to recognize the route along a road. Beyond Granger, however, the conditions change, and to the effect that the route will be described as a road would otherwise appear as something else. The Rocky Mountains and smaller routes are, at their best, very bad.

Another drawback will be that May and June are bad months for automobile travel. The northwest Jack Frost lays a heavy hand on that part of the country, and those who have been there say that the Guggenheim Cup hunters will reach the worst part of the route at the worst time of the year, as far as the footing is concerned. The mud in many places will be found to be a hindrance, and the car that gets through without breakage will be fortunate.

Mr. and Mrs. Hoyer, the round the world tourists, covered a route last year which may be selected. It necessitates, however, a climb of three thousand feet in approximately three miles.

Wood's Liver Medicine is a blood regulator which brings quick relief to sick headache, constipation, biliousness and other symptoms of liver disorders. Particularly recommended for jaundice, chills, fever, malaria. The \$1.00 size contains 2 1/2 times as much as the 50c size. Sold at Red Cross Drug Store.

DOESN'T FLY HIGH ALL WAYS.

A few days after Wilbur Wright had received a money prize of £40, offered by the Sarthe Aero club for raising a given height from the ground, M. Lazare Weller, the financier, said: "Well, Mr. Wright, you have accomplished all you undertook to do, and I have brought you a check for £10,000 on account of the £20,000 agreed upon."

But Wilbur Wright shook his head, and, in his awesome, abrupt manner, replied: "No! Keep it till my brother, or in case he dies, give it to him. I have just received £40 from the Sarthe Aero club, and that will suffice me for a twelvemonth."—London Tit-Bits.

SCHOOL BOARD

MEET IN REGULAR SESSION LAST EVENING.

Secretary of National Playground Association Will be Here in April.

TWO TEACHERS HAVE RESIGNED.

Resignation of Mr. Wetherill from Building Committee Was Accepted.

Physicians Named for Purpose of Medical Inspection in Schools.

At eight o'clock last evening the board of education met in regular session, with members Stolzenbach and Creps absent. Mr. McClure was elected to the chair.

The minutes of the last meeting were read and approved. Superintendent Davidson submitted the following report which was adopted.

Superintendent's Report, March 22, 1909.

Closing of the Winter Term.
The present winter term will close next Friday for the usual vacation of one week, and the schools will reopen on Monday, April 5th, for the spring term of ten weeks. The closing examinations are being held this week.

Resignations Received.
I have received the resignations of Miss Emma Knapp and Miss Adeline Brown to take effect at the close of the present term. I recommend that these resignations be accepted.

Leave of Absence for Miss Wetherill.
Miss Wetherill has asked leave of absence for one year, more or less, beginning Thursday, March 24, 1909. I recommend that this request be granted.

Hoxwell-Patterson Examination.
The county examiners ask the privilege of using the High School Assembly room on the third Saturday of April and the second Saturday of May for the Hoxwell-Patterson examination. I recommend the granting of this request.

Playground Association Meeting.
The secretary of the National Playground Association is to be in Lima to hold a public meeting in the interest of the work of that organization on Tuesday evening, April 13, 1909. I have received a request from Rev. L. J. Swanson, representing the local association for the use of the High School Assembly room for that meeting and I recommend that it be granted.

JOHN DAVISON.
Secretary of Schools.
The chairman, and recognized the board in reference to renting advertising space on the fence at the athletic field and in reference to renting the grounds to railroad teams and others.

Upon motion of Dr. Pence, Mr. Hall was granted authority to lease advertising space and rent the athletic grounds.

Secretary Jackson extended an invitation to the board to meet with the executive committee of the Progressive Association at 7:30 o'clock tomorrow evening.

The finance committee reported in favor of allowing the following bills, which was adopted:

Upon motion of Dr. Pence, the finance committee was instructed to borrow funds to take care of the bills allowed.

Mr. Dean offered a motion that the secretary furnish at the next meeting an itemized list of the indebtedness of the board. Upon explanation of Mr. Herrett that monies due the board would more than cover the indebtedness the motion was withdrawn.

Mr. Dean offered a motion that when the \$1075 due the board from fines assessed in the child labor cases in justice court is received that it be placed in the contingent fund.

Mr. Wetherill offered his resignation as a member of the building committee, which was accepted.

Upon motion of Mr. Dean, Dr. Pence was selected to fill the vacancy caused by Mr. Wetherill's resignation.

As chairman of the sanitary committee submitted his report, suggesting that at the present time the teachers recommend the pupils who are thought to need attention to the physicians designated for the various buildings as follows:

Lowell Building—Drs. Jones and Poling.
Irving Building—Drs. Patterson and Lickly.
McKinley and Richardson Buildings—Kahle and Kinsley.
Emerson and Longfellow Buildings—Drs. Bice and Bachmayer.

Solar Avenue Building—Dr. Hibbard.
Franklin Building—Drs. Herrmann and Terwilliger.
Garfield Building—Drs. Tussing and Diez.
High School Building—Drs. Steuber and Yakey.
Lincoln Building—Drs. Hibbard and Lickly.

Washington Building—Drs. Bates and Patterson.
Whittier Building—Drs. Parent and Kinsley.

The reports of the city met last evening and will make a full report to the board at the next meeting, and that they will furnish a free clinic for those who are unable to pay for services.

Senator T. H. McConica, of Findlay, addressed the board of education to make a great third baseman for Columbus. Larue throws a speedy ball across the diamond and still one soft to the first baseman's mitt. He is death on bunts, too.

CHURCHES FOR VACATION SCHOOLS.
In apparent good earnest a movement has been started to move the annual of the hundred million dollars' worth of church property lying idle between Sundays. The Federation of Churches and Christian organizations is back of the agitation, the vacation schools system during July and August. A mass meeting is to be called March 22nd at which the matter will be discussed. Teachers, it is expected, will be found in abundance among college students at leisure. The children we have always at large in the streets to this scheme should be an assured fact. They owe to the city for their exemption from taxation a little more perhaps than the regular maintenance of weekly services and parish good works. The dedication of buildings to sacred purposes, properly considered, serves pre-eminently as a call of any human betterment cause.—New York Herald.

COULDN'T QUITE FIGURE IT.
"Mr. President," said Senator Carter of Montana, discussing the postal savings bank bill, "the senator from Idaho has told me of a man in his state with 13 children. I cannot quite figure it out."

"Mr. President," replied the senator from Idaho, "I will say to the senator from Montana that I was not speaking thoughtlessly when I referred to a man with 13 children. The man stated: 'They are among my esteemed constituents. I think the senator's imagination is capable of arranging the matter in pairs, triplets and so forth.'"

Parliamentary incident was abruptly terminated.—Boston Herald.

MISS ELIZABETH A. C. WHITE, THE PRESIDENT, AND A FEW MORE.

New York, March 23.—Obedient button book is thrown in. A few men who visited the convention paused in front of the large collection of buttons, which ran up and down and over and across the new creation. Having counted the instruments of torture, the men fled across the street to a haven behind a slab of polished wood and served the strong waters of forgetfulness. Some of them did not come back.

SHORT SPORT TALK.

Walter Johnson, Joe Cantillon's great pitcher, is said to be in rare form in the south this year. He worked several innings the other day without allowing a hit.

Fred Parent and Cravath have been averaging two hits to a game for the White Sox on the coast. Acting Manager Billy Sullivan has Cravath slated for a berth in the regular outfield.

Hughy Jennings is trying to bolster up his catching department, which at present comprises only minor league material.

The condition of Jake Boutles in one of the encouraging features of the "Boutles" practice. Bowdman thinks Boutles will demonstrate this year that he is a major league material.

Roger Bresnahan has decided that the "squeeze" play is no good and has cut it from the Cardinals' repertoire of inside ball.

Fred Clarke likes young Simon the catcher he purchased from the Boston Nationals. The young man's throwing arm has been doing splendid execution in the south.

James H. Clark, owner of the Hartford, Conn., league team, turned a \$12,000 offer for his club from Ira Thomas, who now will probably keep on with Philadelphia.

Mike Welday, formerly of the Indianapolis and who is now in the south training with the White Sox Yarnall, sprained his back so badly that he will be out of the game for several days. Mike has been clouting the ball and is making a good impression.

Walter Pottus, the former Lancaster Ohio State league pitcher, is making a great hit with McAleer, and looks like a fixture with the Browns.

There is a rumor out that Paul Cobb has been let out by the Browns. It is said that the only resemblance between his brother and him was his name.

There was a deal on earlier in the week to trade for Lefty Snyder to Mansfield for Pitcher Bucholz. Snyder wants \$200 a month though, and he could not be induced to agree to the exchange unless the salary was guaranteed. Mansfield then dropped the deal.

Sporting Editor Scott, of the Newark American-Tribune, thinks Larue ought to make a great third baseman for Columbus. Larue throws a speedy ball across the diamond and still one soft to the first baseman's mitt. He is death on bunts, too.

THE NEW TARIFF AT ONCE.

The ways and means committee of the house of representatives has already completed the tentative schedules of the new tariff. It is announced, and the members say the measure will be ready to introduce when the special session meets one week from today. There has been talk about having the tariff law out of the way by July 1, or by June 15. But tariff or no tariff, summer dullness follows upon both those dates. And when fall comes the better part of the year is done. This would mean a full two years of slackness after the financial disturbance of October, 1907. And much of it entirely unnecessary. Under any circumstances delay would be reprehensible. When it means wage earners barred from their livings, capital rusting, savings melting and wealth shrinking, such delay is criminal. All that this country wants now and all that it has wanted for many months is the tariff to go ahead. Let us have it. When the special session of congress meets one week from today the greatest service it can perform will be to vote the new tariff immediately.—New York Press.

WEATHER—FAIR AND WARMER.
Washington, March 23.—Ohio:
Fair and warmer tonight; increasing
cloudiness Wednesday.

The new tariff bill can never be
charged with race suicide. It has
already brought forth an awful list
of infants.

The missing links in the reform
movement proposed the day after the
local option election are John Dieder-
dorfer, of Defiance, and the Mansfield
brewer, who came to Lima and or-
ganized the Business Men's associa-
tion for the express purpose of "pro-
moting temperance and rigidly regu-
lating the liquor traffic in Lima."

A remarkable thing in the journal-
istic field, noticeable locally, too, is
that some editorial writers, who are
der pay of the interests at stake will
lay aside their conscientious opinions
for a few dollars, and as soon as the
pay stops, desert the interests and
get back to where their good sense
and decency always told them they
should stand. Lima readers have
been treated to a rare example of
that kind of a "flare-back" during
the time intervening between Sun-
day morning, December 13th, 1908,
and Tuesday morning, March 23rd,
1909.

The reversal we kindly attribute
to an awakening of a manly honest
spirit, but it may have been due to a
desire for revenge because of failure
to make further touch downs on the
fellows opposed to any abridgment of
a personal liberty that will permit
sixty-eight saloons in Lima, and the
right of a man to drink himself into
a frenzied mental condition that sug-
gests murder, and carries the sugges-
tion into action.

STILL ASKING FOR BREAD.

Officials of workmen employed in
the iron and steel industry have
issued a statement bitterly denounc-
ing the new tariff bill.

They say that propose reductions
in the iron and steel schedule are so
drastic as to be "viewed with alarm
by the workmen employed in these
industries."

But the most remarkable part of
the statement is that which declares
hundreds of thousands of workmen
are idle and "actually asking for
bread."

Doesn't this cry come a bit late?
The election is over.

Before the election Mr. Taft's run-
ning mate, now vice-president of the
United States, said in a speech at Co-
lumbus, that within 60 days after the
election of Mr. Taft this country
would be enjoying the greatest pros-
perity ever known in its history.

Those 60 days are up, and over 60
more days on top of them. Still the
cry that hundreds of thousands of
workmen are idle and actually ask-
ing for bread.

How can it be? One thing is sure.
Mr. Bryan can't be blamed. It
wasn't a "Democratic panic" to be-
gin with and Mr. Bryan was not
elector.

Oh what a howl there would be if
Mr. Bryan had been elected and hun-
dreds of thousands of workmen
were still idle after a long period of
depression and actually asking for
bread.

TREADWAY'S BREAK.
Now comes the Republican Lieu-
tenant Governor, Francis W. Tread-
way, of Cleveland, who presided over
the senate throughout all but the
first week of the special session, and
"lays the governor" in a speech to
the Tippecanoe Club of his home
city much after the manner of Sen-
ator Cleveland's foolish speech in the
senate the day of final adjournment.

By way of apology for his diatribe
Mr. Treadway said: "You know that
the lieutenant governor as presiding
officer of the senate is gagged and
this is really the first time I have had
a chance to speak." It is fortunate
for him that he was gagged if he had
nothing better to say than what the
newspapers report of his speech to
the Tippecanoe Club.

which were deliberate
attempts to bring about the
passage of the bill. The
senator's remarks were
deliberate attempts to bring
about the passage of the bill.
The senator's remarks were

about the passage of the bill.

This editorial appeared in the Re-
publican organ of the state capital
five days before Mr. Treadway enter-
ed Cleveland's foolish utterances to
his political fellows in the Tippecanoe
Club, when he thought the
gag was being pressed over the
senate was temporarily removed.

FACTS ABOUT ALCOHOL.
Dr. C. H. Hughes, of St.
Louis, Mo., Editor of the Journal
Alcohol and Neurologist in
paper on The Neuropathic En-
tailments. Following the use of
Alcohol, said that alcohol scars
and taints race stock with as
much certainty as does syphilis
or tuberculosis.

The damaged brain and de-
praved blood extends far down
into the future, and like the
mud of the Missouri, colors the
waters of the river far below
where it enters.

Heredit is not a theory, but
a fact which can be seen with
great distinctness. How the race
is injured, and what defects are
transmitted are not always
clear, because the facts are not
all studied, but alcohol is cer-
tainly crippling our descendants,
diminishing their mortality and
making life harder and more
perilous.

Eighty per cent of the children
of drinking parents show the
degenerations that are trans-
mitted in different forms and con-
ditions.

"ROME—THE ETERNAL CITY."

Don't fail to hear Dr. Miller on
the above subject at Trinity M. E.
church, Tuesday evening, March 23.
Dr. Chaney, Supr. of the Youns-
own, Ohio, schools, says:

Dr. C. C. Miller delivered his lec-
ture on "Rome" to the large crowd
of city teachers and their friends.
It was pronounced by all to be one
of the most interesting, enjoyable
and profitable lectures they have ever
heard. The general comment was:
Splendid, come again.

OHIO ELECTRIC Will Establish New Limited Service Soon.

The Ohio Electric Railway com-
pany will on April 1 establish lim-
ited service between Fort Wayne and
Toledo by way of Lima, and it is ex-
pected that the running time will be
reduced to such an extent as to make
the electric road a desirable and prac-
tical route between the two points.
Advance copies of the schedule how-
ever have not yet been received here.

Limited service between Toledo
and Dayton will also be established
April 1 and the time will be five
hours.

Man Suffering With "D."
T. "M" Makes Phenomenal
Run on Main.

The police headquarters received a
call from Robert Plas, of South
Main street, about ten o'clock last
evening requesting them to bring
the patron to his home, as he had
picked up a drunken man who was
injured. The patient proved to be
Walter "Hump" Gray of Wapakon-
eta, who Plas found wandering
along Pine street with his clothes
soaked with water and his body soaked
with booze. He took the unfor-
tunate man into his home and called
the officers. Upon investigation it
developed that the man had sustained
a severe scalp wound, and he was
taken to the city hospital where
twenty-three stitches were required
to close up the wound. It was
found that the poor man had fallen off
the bridge, or fallen on the rocky
creek bottom in his wanderings.

Heavy Fine.
Hol Shaffer, who is an old offender
in police court on the charge of
drunkenness, was arraigned this
morning and assessed \$20 and costs.
B. S. Williams and Otto Gallant
were each assessed \$1 and costs on a
similar charge.

George Ballard and Ed Brown, on
the charge of vagrancy were given
one hour to leave the city.
Great Run.
At 2 o'clock this morning Officers
Ferguson and Landfar arrested Dan
O'Keefe at the corner of Elm and
Main streets. The prisoner was
dressed in his night robe and was suf-
fering from a severe attack of delir-
ium tremens. He had run out of his
room on West Wayne street, and
made a phenomenal run from Wayne
to Elm, dodging every one who at-
tempted to stop him, but by the time
he had reached the point of arrest he
was nearly exhausted. He was taken
to the police station and his clothing
secured and where under the care of
City Physician Weadock he is much
improved today.

LEARNED DISCOURSE

On the Crucifixion by Rev.
Graham of Sandusky,
at St. Rose.

FORTY HOURS DEVOTION ENDS

This Evening With Sermon
Splendid Music and
Processional.

Rev. E. P. Graham, of Sandusky,
preached and eloquent and learned
discourse on "The Crucifixion" at
the evening services of the forty
hours devotion at St. Rose church
last night.

The church was filled and all who
attended were a thousand fold re-
warded as Father Graham's sermon
was a genuine treat to all. The ser-
vices of the forty hours will con-
clude this evening at 7:30 when Rev.
J. P. McCloskey of Toledo, will be
the preacher. The solemn and beau-
tiful procession which marked the
opening of the devotion on Sunday
morning will be repeated this evening
with the intoning of the litany
of the Saints by the officiating clergy
with responses from the choir will
take place.

The music for this evening will be
exceptionally fine and the services
will close with the singing of "Holy
God" by choir and congregation.

CORN SPECIAL DATA

Traveling School Will Get to Lima Next Friday Evening.

MASS MEETING OF THE FARMERS

Has Been Arranged for by the Agricultural Society.

The great corn special train will reach Lima March 26th, at 7:30 and remain over night. The Agricultural Society has made arrangements to have a mass meeting of the farmers and others interested in better results from the labor of the corn at the court house, Lima, on Friday evening at 7 o'clock, when address will be delivered by such noted speakers as Homer C. Price, dean of the Ohio State University, subject, "Corn Growing." Charles F. Thern, Ohio Experiment Station, Wooster, "Soil Fertility." Alfred V. Wooten, professor of agriculture, Ohio State University, "Soils." A. P. Sandles, secretary state board of agriculture, "County Fairs." And others of equal prominence. This is the first meeting of the kind in the history of the county. Don't miss it. Bring friends.

CAN COLLECT OHIO ALIMONY.

Justice Fitzgerald in the supreme court today held that a judgment issued in the courts of Ohio, which included alimony, is collectable here. The decision was rendered on the application of Mrs. Esterbrook, known on the stage as Jessie Moore, who sued her husband in Ohio for a divorce and obtained the decree with alimony "in a lump sum" of \$400. The court held that the Ohio law made alimony a personal judgment, which was enforceable in any state in the union.—New York Letter in Pittsburgh Dispatch.

Economical Piano Buying.

Low Price

Plus Standard Quality

Is the only basis on which to judge the merits of a Piano sale. In this day of commercialism when cheap Pianos are built in fairly good looking cases and with temporarily good tone, the buyer must insure himself by getting a standard make of proved quality. This company since 1860 has been selling good pianos to discriminating, careful buyers. When we decided to withdraw our store here until we could obtain a better location, we placed Steinway, Mehlin, Boardman & Gray, Price & Teeple, Ludwig, and Kimball Pianos on sale at PRICES LOWER THAN THEY OR ANY PIANOS OF NEAR THE SAME QUALITY HAVE EVER SOLD AT—PRICES SO LOW THAT WE KNEW THEY WOULD BE SOLD BEFORE WE MOVE OUT.

Over half the stock has been sold, but there are a few choice bargains left. Come in today.

THE IDLER.

Good natured folks are always after a comfortable sleep. It is not a matter of course, but it is a matter of fact.

When the clock strikes midnight, the idler is often found in a state of unconsciousness, with his head on his hand, and his eyes closed.

Some folks get around the right way, and a late hour, but there is always something over the event.

The public pulse in this city is beating fast and hard right now. The first submarine boat was tried in Plymouth harbor, England, in 1771.

Works at Higo have just completed the first modern locomotive ever built in Japan.

The railway between Singapore and Penang, just completed, opens up an enormous rubber country.

The chief justice of the Supreme court is Melville W. Fuller and the associate judges are John M. Harlan, Kentucky; David J. Brewer, Kansas; Edward D. White, Louisiana; Rufus W. Peckham, New York; Joseph McKenna, California; Oliver W. Holmes, Massachusetts; William R. Day, Ohio; and William H. Moody, Massachusetts.

The oldest letter carrier in Uncle Sam's employ—Charles F. West, of Boston—recently celebrated the fiftieth anniversary of his service. Although he is now seventy-five years old, West still puts in the required eight hours every day, delivering his batch of mail promptly. His associate letter carriers marked his anniversary by giving a dinner in his honor.

Charlotte Gilman Perkins, in the Sunday Chicago Tribune asks this question: "Is it good form to fall in love?" The question was referred to a local expert, who after careful analysis of the question replies as follows: "It is good form to fall in love, when you don't fall in love with form alone."

Rev. J. B. Ascham, of Delphos, has gone on a trip east where he will gather material for use in his teachers' institute work. While he is absent, Dr. D. Bowers of this city, will act as one of the substitutes in his place.

Kellia Stockwell, of Quincy, who worked here until about four weeks ago, died at his home Saturday. He was taken ill while in this city, and was removed to his home, but continued to grow worse. The funeral was held yesterday afternoon.

Col. Bill McCall is a popular citizen of Portsmouth, who quit newspaper work to run a successful clothes pressing establishment, all of which aroused the Portsmouth Blade to make the following running commentary:

"It is always a source of gratification to see a man back into the newspaper business with its attendant vicissitudes and then make a successful get-away, escaping both the jail and infirmary. An illustrious example of this species is that of Col. Bill McCall who has occupied about every position in local and out-of-town papers from devil to circulation liar, and who, for the past four years has had charge of the west half of the city's business for the U. S. Laundry, but who resigned a few days ago to engage in the cleaning business along similar lines."

Next Monday Clark county votes on local option. Fifteen hundred and fifteen new registrations were made on last Friday and Saturday, the harvest increase being in the colored wards of the city. Everybody in Springfield is amazed at the increase, and wondering where they all came from. Judging from the experience of the local option committee in Allen county, the "wets" in Clark county could tell if they would.

The police court magistrate of a town in southern Kentucky was walking down the street one November evening with his friend, John Marks, a distiller.

Judge, said Mr. Marks, have you ever tried my No. 1 brand of Old Kentucky?

"No, John," admitted the judge, "but I tried three men in court this morning who had tried it."

Three-year-old Nedra is fond of the recent-there Psalm, sometimes repeating it instead of his regular evening prayer. Last autumn the name of the successful presidential candidate was often heard at the dinner table, and Nedra unconsciously fell into the habit of reciting one passage of the Psalm in this peculiar fashion: "Thy rod and thy staff, they comfort me."

President Nicholas Brown, for whom Brown University was named, was fond of quizzing small boys. One day, while walking in the streets of Providence, he came upon a little fellow who attracted his notice. "How do you do, my boy?" said the president. "What is your name?" "My name is Harry, sir," replied the child.

"Harry, is it?" returned President Brown. "And did you know the evil one is often called Old Harry?" "Why, no sir," answered the boy. "I thought he was called Old Nick."

A visit to Woodlawn cemetery, the city's beautiful and restful home for the dead, discloses many freshly buried people whose names are indissolubly linked with the pioneer history of Northwestern Ohio.

The Dundee Advertiser tells the following excellent Irish story: An Irish soldier on sentry duty had orders to allow no one to smoke near his post. An officer with a lighted cigar approached, whereupon Pat boldly challenged him and ordered him to put it out at once. The officer, with a gesture of disgust, threw away his cigar, but no sooner was his back turned than Pat picked it up and quietly retired to the sentry box. The officer, happened to look around, observed a beautiful cloud of smoke issuing from the box. He at once challenged Pat for smoking on duty. "Smoking, it is, sorr? Bedad, and I'm keeping it lit to show to the corporal when he comes, as evidence again you."

Burns whipped Sullivan in last night's bout. It requires some tact to trade horses while crossing a stream, and some people fail so ignominiously in their attempt that they make themselves the laughing stock of the on-lookers. They make the change, almost, and then find it impossible to get back on the thrifty Pegasus they have just left.

H. M. Walker, who, a score of years ago, was a Western Union messenger in this city, and known familiarly by the boys as "Sport" Walker, is now sporting editor of the Los Angeles Examiner, and a recognized authority in the coast country on all matters pertaining to his chosen life work.

On the Democratic side of the federal senate chamber is a margin of seats to which has been given the name of the Cherokee strip. Some time ago, when the equilibrium between the two parties was overcome by political reverses, and the republicans began to outnumber the democrats, it became necessary to seat the overplus of the former on the side of the hall which belonged to the latter; and hence originated the belt of seats which bears the name of the noted tribe of Indians.

In the choice seats in the upper branch of congress the rule priority is strictly observed and fresh recruits are not apt to secure sittings in close elbow touch with the Old Guard of republican grandfathers while the present disparity exists.

Consequently, Senator Root, instead of fraternizing with the veteran leaders of his own persuasion, like Lodge and Hale and Cullum and Aldrich, may have to affiliate with the captains of the democratic cohorts, like Bacon and Daniel; but if the democrats are not inclined to revolt, Elihu will have no reason to feel aggrieved.

The senator-elect from New York is said to have been the master mind of both the Roosevelt and the McKinley administrations. His diplomatic touch has been felt in the adjustment of every problem which has confronted the government for the past decade. His knowledge of public affairs makes him an up-to-date Encyclopedia Americana. In point of ability he yields precedence to no one; and the law of silence during the first term will have to be suspended in order that the full weight of his wisdom may be brought to bear upon the legislative councils.

But the senator-elect will nevertheless be obliged to content himself, for the time being at least, with the society of his Jeffersonian neighbors in the Cherokee strip.—Atlanta Georgian.

SENATE COMMITTEES.

The senate yesterday filed all committees on its standing committees, and created two new powerful committees, continuing the action taken by the republican democratic caucus held earlier in the day. One of the new committees is entitled "On Public Expenditures" and is composed of the following: Hale, Aldrich, Warren, Perkins, Putnam, Dooliver and Chapp. who are ex-officio members as chairman of the committee on appropriations, finance, military affairs, naval affairs, postoffice and post-roads, agriculture and industrial affairs. The chairman of the committee, Mr. Hale being the acting chairman of the new committee. In addition the following are members of the new committee: Nelson, Taft, Crane, Carter, Bourne, Cushman, Burton, Root, McLaughlin, Newlands, Owen, Fletcher and Hughes.

The other new committee is entitled "On Conservation of National Resources" and is composed of the following: Dixon, chairman, Clark, of Wyoming; Beveridge, Dooliver, Dill, Sherman, Dick, Briggs, Greengarden, Jones, Newlands, Overman, Davis, Baughman and Smith, of South Carolina.

The new members of the committee on Finance are: Cullum, chairman, McPherson, Nelson and Flint, the republican representation having been increased by one, and Simmons, democrat.

When the committee on appropriations, Mr. Cullum, chairman, and Messrs. Root, Barker, and Curtis were appointed as new republican members while Mr. Cullum, chairman, the democratic members, the committee on Finance, Messrs. Cushman, Burton, and Cushman, were made in the democratic list. On foreign relations the republican representation was increased by one and Smith, Michigan, and Root, were named as new members while Schlesinger became the new democratic member. For literature committee, Mr. Dooliver, retained in favor of his colleague.

There were quite a number of changes in chairmanships of committees as follows:

Dooliver, agriculture and forestry; Hale, appropriations; Smith, of Michigan, Canadian relations; La Follette, census; Cushman, civil service and rearmament; Baughman, education; Taft, relations, corporations organized in the District of Columbia; Sherman, land, Cuban relations; Baughman, education and labor; Grubb, enrolled bills; Richardson, to examine the civil branches of the civil service; Jones, industrial exposition; Carter, reclamation of arid lands; Perkins, naval affairs; Dooliver, Pacific islands and Porto Rico; Brown, patents; Spooner, printing; Crane, rules; Page, standards, weights and measures; Oliver, transportation, routes to the seaboard, and Guggenheim, university of the United States.

Several changes were made in the chairmanships of small select committees which are headed by democratic senators. The only change made in the territories committee is the substitution of Hughes, democrat for Newlands. The change was made by the senate without debate.

Mr. Aldrich stated that he would later submit a resolution fixing the powers and duties of the new committee on public expenditures.

RADIUM AND PLANT LIFE.

It has been discovered that radium rays act as a stimulus to the growth of plants. Up to a certain point, exposure to the rays results in considerably increased growth of germinating seeds, but if the strength of the dose is increased beyond this point there ensues a falling off, ending in complete stoppage of growth.—Pittsburgh Chronicle Telegraph.

The Times-Democrat takes pleasure in heralding the advent of a short season of grand opera, and from criticisms passed upon the work of the principals and chorus of the Boston Grand Opera Company by the metropolitan press of Ohio, we can consistently recommend it as a capable and high class organization.

Stiff neck is caused by rheumatism of the muscles of the neck. It is usually confined to one side, or to the back of the neck and one side. While it is often quite painful, quick relief may be had by applying Chamberlain's Liniment. Not one case of rheumatism in ten requires internal treatment. When there is no fever and no swelling as in muscular and chronic rheumatism, Chamberlain's Liniment will accomplish more than any internal treatment. For sale by all druggists.

DEATH CALLED HIM

From Old Home Just Before
Necessary Removal
Was to be Made.

JULIUS DALZELL
PASSED AWAY.

Veteran Blacksmith Had
Been Unconscious for
Three Days Past.

The Dalzell family, one of the oldest and best families in the city, lost another representative today, when Julius C. Dalzell, who has been ill for some time, died at his home at 211 East Market street at five o'clock last morning.

Born in this city sixty years ago, he deceased had lived for fifty-eight years in the house which sheltered him in death. Owing to the contemplated interurban station to be erected on East Market street the family had already begun to pack their household goods preparatory to removing their residence, and it seemed a happy thing that Mr. Dalzell was allowed to end his days in the dear old home, which had been home to him almost from his birth. A blacksmith by occupation, he had been a quiet, conservative citizen, highly respected, and while not taking an active part in political or literary work, he would bring him much before the public, he took great interest in the affairs of city, county and state. Some four years ago he was forced to give up his business, and since that time has been a great sufferer from rheumatism, with locomotor ataxia attacking him later, and last Saturday he was taken much worse, slipping into unconsciousness from which he never rallied until death took him.

The deceased was the son of Isaac and Mary J. Dalzell, his mother belonging to the Mowen family, another of the pioneers of the county, and the father of the deceased died years ago, the mother still surviving. In addition to the aged mother, a sister, Mrs. Walter Gray, who also resides at 211 East Market, and a brother, H. E. Dalzell, of Cadillac, Mich., are the other surviving members. Mrs. Dalzell is a niece of the deceased, there being no other immediate relatives living in this city.

The funeral services will be held Thursday, the hour not yet decided, and they will take place at the home, and will be conducted by Rev. Edw. J. Maloney, rector of Christ's Episcopal church.

AN OUT OF DATE
LOVE LETTER.

(Copyright, 1909, by American Press Association.)

"Tom," said my sister with an impatient look that denoted she had something very important to say to me.

"What is it, Molly?"

"Before you go away this time I've something to say to you."

"Proceed."

"You have ceased to be a lover to your wife. I don't mean you have ceased to love her, but you've become so under-observant. When you are away and write her she tosses the letters to read, half the time before she has read them herself, and they might as well come from a Turkish partner. Not a word of love from her beginning to end. If I had a husband who wrote me that way it would break my heart."

"How do you know it would? You haven't a husband."

"That's different," she objected.

"I'm different. Nevertheless I'm always gentle for my points that will enable me to draw Edith closer to me. To me my wife and children are more than all the world. My knowledge that John is to you. Much more than to a hundred and you'll get some idea of my affection for my family."

"I'm sorry and absolutely impossible."

"This time I'll write to you. I'll write to you."

I kissed her, went into the kitchen, where Edith was taking bread, and kissed her, too, and then returned to my room.

Which she did, and I was so busy during my absence that I didn't write a word. On my return, which was at night, I went to my room as usual, and it occurred to me to copy it, take it out to the post, and it would be delivered the next morning before breakfast. This I did and went back to bed and to sleep, conscious of having performed my full duty as a loving husband.

The next morning I was awakened by a whistle and ring at the front door. I went to the landing and looked over. The postman brought my letter. Molly received it and took it into the dining room, where I could hear the children's voices and a clatter of dishes at the breakfast table.

"Dearst, sweetest, loveliest Edith"—A brief pause, at the end of which I heard a burst of laughter from the selfsame Edith.

"I'm ashamed of you," said Molly.

"Every husband should write his wife that way."

Edith read on. "Though I have been absent from you but a few days, every moment has hung heavy on my hands. I have counted the hours till I may fold my darling again in my arms."

"Goodness gracious!" exclaimed "my darling." "Has he lost his senses?"

A brief pause. "Oh, heavens! He may be sick and delirious!"

"No such thing," cried Molly. "He's simply showing his devotion for you."

Edith read on. "When morning comes I say, 'Another long day, and at evening, 'Another long night.'"

"For heaven's sake, something dreadful has surely happened! Where can he be—in a hospital or?"

"Nonsense!" from Molly. "He is as well as you or I. What is there in the letter to make you think he's ill? John writes me that way."

Edith read on. "Of course there are your letters. I read them over again and again till I can repeat them by heart." "I haven't written him a line—then I sit down and, with your sweet words before me, reply to everything you have written me."

There was a pause. I may say a dreadful pause.

"Well, I declare, I never before knew that my husband was an idiot. Oh, Molly, if a wall could be that he has written this 'garble' to some other woman and sent it to me by mistake. I'll leave him! I'll be out of this house when he comes back."

This was followed by hysterical sobs, humming downwards in my night-shirt. I advanced to take my agonized wife in my arms. She repulsed me.

"Don't ever let me see your face again, you monster!"

"Why, darling, it's a love letter—a copy of one I wrote you when we were engaged."

"Wrote me?"

"Yes, you."

"Do you mean that you wrote that 'garble' to me?"

"I did."

"And I didn't send it right straight back to you?"

"You sent it to me."

"Oh, my gracious goodness!"

Here Molly interposed. "I suggested Edith," she said, "that Tom was an under-observant in his letters and that he try to do better."

Edith, reassured, consented to the regular home come kiss from me, then, requiring her seat at table, suggested that I cease to make an exhibition of myself, go upstairs and put on proper clothing.

A Woman's Back

Has many aches and pains caused by weakness and fatigue of the muscular system of the pelvic organs. Other symptoms of female weakness are frequent headache, dizziness, irregular periods or dark spots floating before the eyes, gnawing sensation in stomach dragging or bearing down in lower abdominal pelvic region, disagreeable discharges from pelvic organs, faint spells with general weakness.

If any considerable number of the above symptoms are present there is no remedy that will give quicker relief or a more permanent cure than Dr. Pierce's Favorite Prescription. It has a record of over 70 years of cures. It is the most powerful invigorating tonic and blood-purifying agent known to medical science. It is made of the glyceric extracts of native medicinal roots found in our forests and contains not a drop of alcohol or harmful or habit-forming drugs. Its ingredients are all printed on the bottle wrapper and attested under oath as correct.

Every ingredient entering into "Favorite Prescription" has the written endorsement of the most eminent medical writers of all the several schools of practice—more valuable than any amount of non-professional testimonials—though the latter are not lacking, having been contributed voluntarily by grateful patients in numbers to exceed the endorsements given to any other medicine extant for the cure of women's ills.

You cannot afford to accept any medicine of unknown composition as a substitute for this well proven remedy of known composition, even though the dealer may make a little more profit thereby. Your interest in regaining health is paramount to any selfish interest of his and it is an insult to your intelligence for him to try to palm off upon you a substitute. You know what you want and it is his business to supply the article called for.

Wheat Pit Bullish.

Chicago, March 22.—Despite liberal receipts in the northwest and favorable weather for the fall sown crop sentiment in the wheat pit today was rather bullish and prices were up about half cent compared with the previous close. The European visible supply of wheat was reported to be at a very low mark and this helped to strengthen the market here. Prices at the start were a shade to half cent higher. May was at 115 1/2 to 115 3/4 and July at 103 1/2 to 103 3/4. Later May sold at 116, July after selling at 102 3/4, 103 1/2 advanced to 103 3/4.

MY DISPOSITION IS
NOT TO QUARREL

But I feel justified in saying a few words regarding the misleading statements my competitor has made. I see no reason why my friend should take offense at my selling a few pianos. The Starr Piano Co. have been selling these Pianos here for years, strictly under one price system. I am selling these same Pianos at the very same price, only I am giving the people that are holding these Piano Bonds the advantage of using them same as cash. Every Bond I issued is worth every dollar the amount it is written for. \$100.00 looks good, whether you are in the piano business or not. My offer stands good to anyone that can prove that one single Piano in the store is marked \$1.00 higher than the regular price. These prices are prices at the factory, and are absolutely sold at this price at all of their different stores. It is pretty thin for our competitor to state, when he admits that the Starr goods are sold at one price, but that the prices are too high. We know the judgment of the Lima people is too good to be misled in this way, for the goods could not be sold year after year unless the prices are right.

NO FAKE! NO MISREPRESENTATION!

Bring your Bonds in; we will convince you in plain figures that we will save you the price of the amount your Bond calls for, on a Piano. Easy payments. Any pianos sold that are not satisfactory, I will exchange. Saturday, the 27, is the last day bonds are good. Don't miss your opportunity.

Grain and Provisions.

Chicago, March 22.—Wheat: May \$1.16 1/2 @ 1/2; September 97 1/2.

Corn—March 64 1/2; May 66 1/2; July 65 1/2 @ 1/2; September 65 1/2; December 57 1/2.

Oats—May 54 1/2; July 48 1/2.

Pork—May \$17.82 1/2; July \$17.82 1/2; September \$17.82 1/2.

Ribs—July \$9.60; September \$9.77 1/2.

THE ETERNAL MASCULINE.

A study of the trousers legs as seen in the photographs of our most noted men brings the smile of contempt from even the most disinterested, and one wonders if anything could be uglier than the comical folds of the clumsy, elephantine outlines that are there to be seen. Breaches, kickers, and kilts are all far more artistic and healthy.—Tailor and Cutter.

FEWER MARRIAGES IN GERMANY

Official statistics published today show a diminution in the number of marriages contracted in Germany. In Prussia marriages have decreased from 312,000 in 1907 to 302,000 in 1908. A corresponding diminution has taken place in other states of the empire in spite of the increase of population. The birth rate in Germany also reveals a slight decrease.—London Evening Standard.

Alfred Austin Revised.

Alfred Austin in Hamlet's Maze, has a poem entitled "You and Me" in which he alludes upon Americans in the last two lines as follows:

And if you will stand by us, Be sure that We will stand by You.

To which we hasten to reply, by way of reassurance:

Just stand by We'll stand by you. To stand, dear Alfred, by You.

Inauguration Day.

On this great day a child of time and fate On a new path of power do stand and wait.

Thou heavy burdened shell his heart reveal! Dowered with a nation's faith an eagle pure of choice.

Who hath no strength but that the people give, And in their wills alone he will doth live.

On this one day, this, is their one man The well beloved, the chief American.

Whose people are his brothers, fathers, sons, In this his strength and not a million guns.

Whose power is mightier than the mightiest crown Because that soon he lova that power down.

Whose wish, linked to the people's, shall exceed The force of civic wrong and banded greed.

Whose voice, in friendship or in warning heard, Brings to the nations a free people's word.

And above the oppressor out from the darkness free.

'Tis as the voice of freedom and of hope On prairies that he may rightly rule the

And now, my friends, the hour is here—Behold! A nation's faith in you!

COST OF WAR.

Some conception of the expansive-ness of war may be gathered when it is known that it costs as much money to fire a twelve-inch gun as an editor makes in two years.—Newark News.

Lecturer—You fellows are in earnest, are you?

The Three—Yes, sir.

Lecturer—You look it.
